Fifty Classic Adventures in California

Epic Journeys For Friends and Family In and Around National Parks

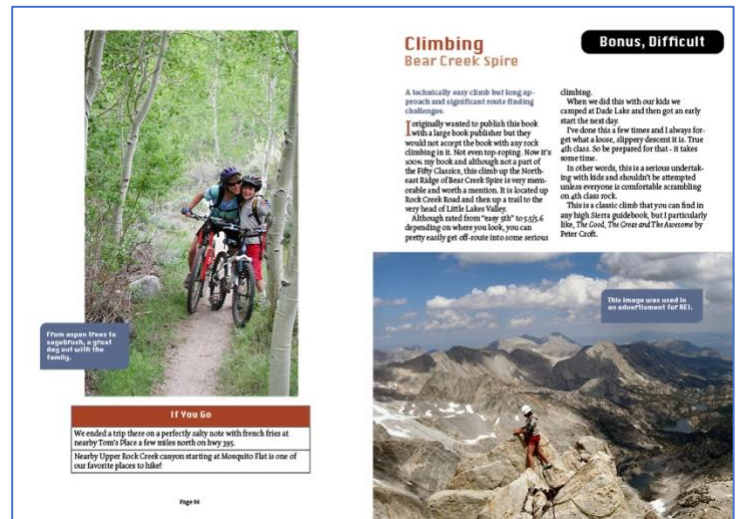

Authentic Adventure

Fifty Classics includes "normal" adventures like hiking and biking but also includes unique, under-radar-adventures such as mule-supported camping, ebike lodge trips and canyon scrambling. All told there are 70 adventures (50 classic and 20 bonus adventures) consisting of 15 different adventure activities included in the book.

National Parks

The book focusses on the major National Parks of California but not exclusively in the parks. The parks are getting crowded and there are some fantastic and varied adventures just outside the park borders. In addition, the adventure areas of Lake Tahoe and the Eastern Sierra are included in the book.

Compelling Images

Award winning photographer, author and pilot Ney Grant spent over seven years documenting adventures and capturing images of the national parks, often by air. There are also images captured from the author's plane by professional photographers such as Corey Rich.
